For member of the House, 34th Legislative Assembly, from the counties of Otero and Dona Ana.

MAJOR W. H. H. LLEWELLYN,
Of Las Cruces, Dona Ana County.

REPUBLICAN PLATFORM.

The following is the text of the patriotic and forcible resolutions adopted by the Republican territorial convention at Socorro:

1. With the record of the achievements of the national Republican party during the last three years as a guarantee of the protection of the honor of our nation, and the prosperity of our fellowmen in the future, the Republican party of the territory of New Mexico, in convention assembled, at Socorro, N. M., on the 17th day of March, 1900, reaffirms its faith and allegiance in the declaration of principles set forth in the national Republican platform of 1896.

2. That we pledge ourselves, and the party in New Mexico, to the hearty support of the platform to be adopted in Philadelphia, to protection, sound money and expansion, and to the nominees of that convention whom we believe will, and of right should be, that honored, tried, true and patriotic type of American manhood, William McKinley.

3. That we admire and reverence the wise and patriotic administration by President McKinley, of public affairs in war and in peace, at home and abroad, and that particularly this territory is grateful to him and the principle he represents, for the unprecedented prosperity we have enjoyed during the three years of his administration; that we are grateful to the president for appointing as governor a native of this territory, the first in our history under the American government, and we most heartily endorse the administration of Governor Otero as having been economical, conservative and prudent and for the best interests of New Mexico here and in the east.

4. We particularly commend to Governor Otero his zeal and energy in organizing the troops from New Mexico for the war with Spain, by which he enabled New Mexico to furnish more than her quota of soldiers in less time than was required, and in that splendid American regiment called the "Rough Riders" to gain for our territory undying fame, and for his excellent and voluminous reports upon the different sections of the territory, made to the secretary of the interior, and through him to the president, congress and the citizens of the United States, which have done so much to bring our great national advantages before the people of the country. We believe the salaries paid to the governor and justices of the supreme court to be altogether inadequate. Therefore, we earnestly pray that the bill now before congress for an increase in the salary of these officers be enacted into law.

5. That this convention strongly commends the measure introduced into the United States senate by Chauncey M. Depew, of New York, a bill entitled "An act to promote and encourage the mining, mineral and metallurgical industries of the United States," and that our delegates in congress be instructed to use all honorable means in aiding and securing the passage of the same.

6. We heartily approve the action of congress in its refusal to pass laws pending before it under which it was proposed to lease the public domain in the territory of New Mexico, and thereby deprive our citizens of the privilege of pasturing and grazing their flocks and herds thereon.

7. That, whereas there are many just and meritorious claims pending on account of the Indian depredations, for the adjudication and payment of which no adequate provision has yet been made, we respectfully call the attention of congress thereto, and earnestly request such legislation as will lead to a prompt consideration and payment of all such claims.

8. We renew our demand for the speedy admission of our territory into the sisterhood of states as an inherent right by virtue of our population, resources, our past and present patriotism, and our constant loyalty to the flag of the union and solemn treaty obligations.

9. And be it resolved that this convention voices the Republican party of our territory in an appeal to the members of the house of representatives to defeat the bill recently reported favorably by the committee on territories of the said house of representatives disapproving the act of the legislative assembly of New Mexico, entitled "An act to create McKinley county," being chapter 19 of the session laws of 1899. That in this proposed legislation we perceive an attempted interference with the right of local self government, which should properly be submitted to the territorial legislative assembly for appropriate legislation thereon, and a covert design by interested persons to now defeat an act of the assembly with those same persons at the time of its passage advocated, and that we hereby disapprove and distinctly condemn the policy pursued in the attempted passage of the measure by congress.

10. Resolved, That the Hon. Solomon L. Boutwell, our present able and honorable member of the Republican national committee, be and he is hereby unanimously endorsed for that position for the ensuing term upon such committee, with our sincere thanks and appreciation for his valuable services thereon in the past.

It's a long time between libraries, Mr. Carnegie.

When the British got to reforming South Africa, mightn't it be well to begin with the spelling?

It seems that it costs an actress less to be arrested than to have her jewels stolen, and it pays far better.

The Chinese door is open, and John Chinaman is now wondering whether he may not be kicked out through it.

CITIZENS of Carlsbad recently called an indignation meeting and ordered two dissolute characters out of town.

GENERAL DE WET is now commander of the Boer forces. This may explain Kruger's desire to come in out of the rain.

CANDIDATES for county election are already announcing themselves in the papers published in the surrounding counties.

OOM PAUL hasn't staggered humanity so far and he doesn't seem to be likely to have any particular chance to do it in the future.

MRS. LANTONY broke into New York society; she tried to break in at Philadelphia, and failed; now what is she going to do in Chicago?

ILLINOIS DEMOCRATS might find Ex-Governor Altgeld willing to be their standard bearer again this fall, even if Carter Harrison does refuse.

IF Col. Bryan is wise, he will get both Hill and Gorman to make their proposals for union in writing, so that he may sue for breach of promise if he is betrayed.

GERMANY imports about \$10,000,000 of American meats, and exports some \$75,000,000 of products to the United States. Which would profit least by a tariff war?

THE Roswell Record was published last week "as woman would", by the ladies of the Christian Church of Roswell. The scheme showed commendable enterprise on the part of the Record.

THE Senate shut Billy Mason up in great shape the other day. It did it merely by shutting the doors and then letting him talk. But Billy didn't care to talk without an audience, and soon sat down.

KANSAS old maids are getting worried. Some days ago, those of Coffeyville in that state announced a special social for old bachelors. Look out, boys, you are taking your freedom in your hands if you go.

TO AMEND the Hay-Pauncefote treaty so as to enable the United States to "defend" but not to "fortify" the canal is worse than useless. Better follow Secretary Hay's original plan for general neutralization.

THE gold bill has become a law and the United States takes its place, thanks to the Republican party, with the other enlightened nations of the world, instead of longer lagging behind with Mexico, China and Bolivia.

REPRESENTATIVE HERRICK of Iowa has introduced a bill prohibiting the use of the mails to papers giving accounts of prize fights. If he would forbid the publishing of challenges and answers to challenges, he would be more likely to succeed in his object. One thing prize fighters must have or die, and that is plenty of mouth warfare.

THE Porto Rican bill is still hanging between heaven and earth, and it is impossible to tell how it will be decided until the final vote is taken. The Republican party, however, may be trusted to debate the matter fully and to do the very best thing possible under all the circumstances of the case. If it has made a mistake, which is by no means certain, in spite of popular clamor, it will be brave enough and great enough to retract its footsteps, and the country will honor it for so doing.

THE shipping bill, so much needed by our marine interests, has been favorably reported to the house of representatives by the unanimous vote of the Republican members of the committee which considered it. It has been modified to meet all genuine desires for its improvement, and must now be passed without regard to the objections of those who cannot see further than their noses and are unwilling to spend a little money in order to reap fourfold returns.

THE Republican senators have wisely decided on a policy of delay in regard to Porto Rico. A month or so more will not hurt the island and may help party differences and bring out some satisfactory solution of what is, perhaps, in all its consequences, the most important question of this generation. This is the very best decision that could be reached at present. After the excitement of the moment is over, senators may be able to come together on a basis now impossible instead of breaking the party into factions.

THERE are four things necessary to the successful conduct of schools:

First—A board of education competent to pass on the qualifications of applicants for positions as teachers.

Second—A board in harmony with the county superintendent of schools, so there will be no clashing and retarding of plans.

Third—The interest of every woman in the community who has a child of school age.

Fourth—A faculty with sufficient dignity to establish a code of honor among the pupils and exercise a good influence over their moral welfare.

AN economy of \$25,000,000 a year in freight charges on our foreign commerce is one of the immediate benefits which Senator Frye predicts would follow the adoption of the bill for the encouragement of the merchant marine of the United States. No man in this country has given this subject a closer study than Senator Frye, and his accuracy of judgment and absolute candor in his statements render this prediction of his especially interesting. The expenditures under the proposed shipping bill will be about \$9,000,000 a year, and if by its adoption, \$25,000,000 a year can be saved in freights, it would be an economy of just \$16,000,000 per annum, all of which would be distributed among the people of the United States.

Prior to the adoption of the protective tariff in the United States, the exports were almost always less than the imports, and by the time the protective tariff was established by the Republican party the balance of the trade against the United States was more than two billions of dollars, counting from the date of the adoption of the Constitution. Since the protective tariff became a permanent feature of our laws however, the balance of trade in our favor has been nearly \$4,000,000,000 and is increasing every year, the total balance of trade in our favor in 1898 and 1899 alone amounting to more than a billion dollars. Yet there are a few people who still have the assurance to tell the voters that a protective tariff will injure our foreign markets.

ROSWELL newspapers at present head the list for clever business management, and progressiveness. The Record and Register recently combined to raise the price of their subscription to \$2 per year, on account of the advance in the price of paper stock. This is a much better plan than both cutting to drive a competitor out. Under the cutting system some one must necessarily fail; and a newspaper failure casts as much discredit on a town as a failure in any other business line. When prices are kept up, the papers naturally improve and one need not feel ashamed to send their home paper out of town. Also when prices are cut, the management finds that it cannot make ends meet and the paper must be filled with patent medicine and other undesirable advertisements at cheap rates to save composition and reduce expenses. Advertisers benefit by paying good rates and excluding the worst classes of advertising and by having their advertising set off with plenty of interesting reading matter.

THE election of a board of school directors is a matter which will come before the voters of Alamogordo within the next sixty days. This is a question which should not be considered in a political sense at all, but the best men should be selected for the positions irrespective of political belief or other creed. The new board will have a world of work to do, much of which has been mapped out by the old board. It should be their aim to improve as much as possible on the work already accomplished and give to Alamogordo a school system that will be classed as second to none in New Mexico. A magnificent building is soon to be erected which will be a source of pride to Alamogordo, and the entire school system should be graded in such a manner that a young man or young lady in finishing is able to step into a college preparatory school and acquire himself or herself creditably. It is a deplorable fact that the public school system of New Mexico is not up to the standard set in eastern communities, and an effort should be made here to bring the Alamogordo schools as near perfection as possible, and give the children the best possible opportunity for fitting themselves for the higher walks of life.

No man should consent to run on any ticket as a school director unless he is decidedly interested in children, or has children of his own of school age, and unless he will devote the time requisite in building up the school system. And no man should permit his name to be used unless he is sufficiently well

qualified in personal education to examine the teachers employed. The question of ability, should not be left to the certificates carried by the teachers alone, for many carry certificates who are not entitled to them. The directors should be able to judge whether the faculty, curriculum and grading of the schools furnish a system commensurate with the needs of the community.

A MAN who occupies a position of school director in a new town has his hands full and the least mis-step will bring on him the odium of the whole community. And it is the duty of the community to see that men are elected to the positions who are not liable to make mistakes. There is no honor for an incompetent man to seek election as a school director. Lack of system and dearth of proficiency in the schools will prove more injurious to a director's character than he can repair in several years of upright conduct. A school director should have no fear or feelings other than conserving the interests of the tax paying, intelligent people of the community. A man who permits his sympathies to run away with his judgment, is not fit for public office of any sort, and a man who has insufficient courage to assert his views of right and justice is as badly disqualified. THE NEWS believes that the best interests of the community could be attained by putting up a Citizen's ticket, composed of thoroughly competent men, and letting politics be kept out of school matters. THE PEOPLE are supposed to attend to their school matters and if they prefer to turn them over to designing politicians, it is their own fault and they should grin and bear it. This is not a political matter, it is a matter which strikes nearer the heart of stone and the mother's heart than any other. And the whole male portion of the community should aid the mothers in securing for their children that one dearest ambition of the mother's life—a good education for her child.

There are many good men in this community who will make exceptionally proficient directors. Here are a few: Major L. E. Gillett, W. A. Hawkins, R. L. Stewart, John L. O'Shea, W. E. Warren, Col. Lewis J. M. Laurie, C. G. Waller, W. E. Palmer, C. H. Waldschmidt, T. J. Norman and W. S. Valentine. The editor has not approached any of the above gentlemen as to their wishes in the premises. Some of them would not run on a party ticket. Four of them are college men and the others are honorable, responsible, conscientious citizens. A school board could be selected from the names that would meet every requirement of the offices.

PITY THEM.
What a beautiful outlook the Republican candidates will have in this county in the coming campaign for election, as their principle support will be derived from a railroad corporation newspaper.—Tularosa Democrat.

WHERE IT GOES.
We are under obligations to the ALAMOGORDO NEWS of last week for free advertising space. Of course it won't do the Democrat much good, as nearly all the News' circulation go to eastern subscribers in New York and Pennsylvania.—Democrat.

The above reminds the editor of a story which once went the rounds of the press: "An eastern advertiser, desiring to reach the residents of a particular locality wrote the editor of the local paper there, asking his rates and circulation. The editor raised his circulation figures so high that the advertiser again wrote asking: 'Where does your paper go to?' In response the editor stated: It goes from Maine to California, Louisiana, and its all I can do to keep it from going to hell."

Perhaps the Democratic editor would make a similar reply if he had pressed for information on the subject.

SOME STATISTICS.
DURING the seven months ending with January, 1897, the country had gone through a campaign in which business was threatened with free silver and free trade. During the seven months ending with January, 1900, the country was prosperous under a protective tariff and sound money. The effect upon business and thus upon labor of these two contrasted periods is indicated in some degree by the following table of exportation of various classes of articles in the production of which labor enters so largely.

Exportations of leading articles from the United States during seven months ending with January, 1897 and 1900:

	1897	1900
Breadstuffs	\$126,879,964	\$182,033,013
Provisions	80,577,136	106,353,935
Total iron & steel, m'ts	31,398,978	66,466,028
Copper and m'ts	17,778,132	20,044,266
Lumber and m'ts	10,696,847	16,945,485
Coal	7,107,135	10,619,793
Oil cake	5,957,207	6,253,778
Cotton seed oil	3,546,127	4,283,987
Agricultural implements	1,520,042	5,192,738
Iron pipes and fittings	1,474,203	4,252,778
Steel rails	1,497,937	4,287,203
Scientific instruments	1,582,085	3,790,485
Wire	1,199,380	3,587,304
Cars and carriages	1,560,913	3,329,208
Railway engines	1,428,856	3,003,360
Boats and ships	755,723	2,863,925
Nails	497,972	1,815,016

Caught a Dreadful Cold.
Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1053 Milwaukee Avenue, Chicago, says: During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by W. E. Warren & Co.
